

ABDULLAH AL NOMAN

Full Stack Developer (MERN / Next.js)

Tangail, Dhaka, Bangladesh | 01850495118 | nabdullahal273@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Full stack developer with hands-on experience building production-style MERN and Next.js applications, including role-based access control, JWT authentication, and Stripe payment integration. Currently completing an intensive full stack web development program while pursuing a BSc in Fisheries. Comfortable working across the stack from responsive UI to secure REST APIs, with a strong habit of using AI-assisted workflows to debug, ship, and learn faster.

TECHNICAL SKILLS

Languages & Frontend: JavaScript, TypeScript, HTML, CSS, Tailwind CSS, React, Next.js

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, JWT, BetterAuth, Firebase Authentication

Tools & Practices: Git, GitHub, REST API design, Stripe, Vercel, Render, AI-assisted development workflows

PROJECTS

BloodLink — Blood Donation Platform

[Live Demo](#) | [GitHub](#)

- Built a full stack MERN/Next.js platform connecting blood donors with recipients, supporting donor registration, donation request lifecycle management, and role-based dashboards for Donor, Volunteer, and Admin roles.
- Implemented secure authentication using Firebase Auth combined with JWT-protected REST API routes, including role-based middleware (verifyAdmin, verifyAdminOrVolunteer) on the Express server.
- Integrated Stripe for a funding/donation system with server-side payment intents, and built an admin dashboard with live statistics and request analytics.
- Tech: Next.js, React, Node.js, Express.js, MongoDB, Firebase Auth, JWT, Stripe, Tailwind CSS, Framer Motion.

StudyNook — Room Booking & Resource Management System

[Live Demo](#) | [GitHub](#)

- Developed a full stack CRUD application for managing room bookings, availability, and inventory records with a REST API backend.
- Designed MongoDB schemas with Mongoose for bookings and resources, and built reusable React components for booking flows and data tables.
- Tech: React, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS.

Skillsphere — Online Learning Platform

[Live Demo](#) | [GitHub](#)

- Built a course discovery platform with Next.js App Router, implementing protected dynamic routes that redirect unauthenticated users to login and return them to their originally requested page after successful authentication.
- Integrated BetterAuth for self-hosted email/password and Google OAuth authentication, including a profile management flow allowing users to update their name and avatar.
- Implemented client-side course search and a fully responsive, multi-section homepage (popular courses, trending courses, top instructors).
- Tech: Next.js, Tailwind CSS, DaisyUI, BetterAuth, MongoDB.

EDUCATION

Complete Full Stack Web Development Program

2026 (Jan) – Present

Programming Hero

- Intensive, project-based curriculum covering HTML, CSS, Tailwind, JavaScript, TypeScript, React, Next.js, Node.js, Express.js, MongoDB, Mongoose, Git/GitHub, and AI-assisted development.
- Built and deployed multiple full stack applications, including a role-based blood donation platform and a room booking management system.

BSc (Hons) in Fisheries

Level 2, Semester 1 — In Progress

Patuakhali Science and Technology University

- Developing strong analytical, research, and problem-solving skills alongside independent full stack development training.
